# Your Food & Recipe Bundle

Eat enough protein, stay comfortable, and keep it simple

## The #1 nutrition goal on a GLP-1: enough protein + enough water.

When your appetite drops, it's easy to under-eat — especially protein. These lists and recipes make it easy to hit your protein target with small, satisfying meals that are gentle on your stomach.

### What's in this bundle:

- ✓ High-Protein Food List — your go-to proteins, with grams per serving
- ✓ GLP-1-Friendly Foods — easy-to-digest, high-fiber, hydrating picks
- ✓ Foods That May Trigger Discomfort — what to go easy on
- ✓ Protein Cheat Sheet — hit your daily grams at a glance
- ✓ Printable Grocery List — check-off shopping made simple
- ✓ The Balanced Plate — how to build a GLP-1-friendly plate
- ✓ 15 High-Protein Recipes — breakfasts, lunches, dinners, snacks & smoothies

### Simple habits that help:

- Eat protein first at every meal.
- Take small bites and stop when comfortably full.
- Sip water through the day — aim for steady hydration.
- Smaller, more frequent meals often feel better than three big ones.

**A note**
